

# The Local Government Investment Pool

## Celebrates 30 Years

We would like to celebrate the 30th year of LGIP by putting together some historical data from the inception of the program. The LGIP would not be successful without the help of the staff here at the Office of the State Treasurer. At less than one basis point the LGIP holds the lowest costs nationally for an investment pool. The Pool has experienced significant growth and success since its inception. The average portfolio balance during the Pool's first year of operation was \$188.9 million. In fiscal year 2016 the LGIP has hit a high balance of \$13.6 billion bringing our average daily balance to \$10.8 billion. Over the past 22 years the LGIP has distributed earnings to participants that equals to \$2.4 billion. We hope you enjoy information and would like to thank you all for participating in the Local Government Investment Pool.

Kari Sample

LGIP Administrator, 2011-present

### Average Daily Invested Balances:

1991- \$1.1 Billion
